**20 - 21 September 2011, Karlsruhe, Germany**

*Conference location: Karlsruher Schloss*

### Scope of Inertial Sensors and Systems:

At the traditional symposium in Karlsruhe, Germany, formerly known as Symposium Gyro Technology, the latest state of inertial sensors and navigation systems as well as gyro technology will be presented.

With respect to modern systems for navigation, positioning and direction finding, which increasingly use information provided by non-inertial sensors and systems, the conference focuses on these topics with growing interest.

You are kindly invited to attend the conference in Karlsruhe, Germany, and we would like to encourage you as well to contribute your scientific work.

*Unmanned Aerial Vehicle*

### Your scientific contribution:

Please submit your paper to the chairman of the program committee Dr.-Ing. Walter Bernard.

E-mail: [sym-gyro@diehl-bgt-defence.de](mailto:sym-gyro@diehl-bgt-defence.de)

Abstract Deadline: April 29, 2011

Author Notification: June 15, 2011

Receipt of Final Paper: September 20, 2011

**Conference language:** English

**Conference Fee:** 120 Euro

*UAV Mission Planning*
